

MATAGAMI AREA (NORTHERN ABITIBI)

Geological and structural context interpreted as similar to the **Detour Lake Gold Mine** (Reserves >15 Moz @ 0,97g/t Au¹)

REGIONAL FAULT RWSZ + LOSZ

2 Gold bearing corridor and shear zones with strong similarities with world class deposits with barely drill tested!

The "3A" APOLLO – ATLAS – ADMIRAL

- 248 claims (15,000 ha) adjacent and along regional gold-bearing trends
- Active sector along all season roads
- 1st Priority Zone
